Projects

BIRD

fb.com/BIRDgeo 2019

After the last hard summer for Georgian tourism, me and my designer friends tried to help small touristic companies with logos and other visual stuff for free

Datafest Tbilisi Team Member

datafest.ge 2017 – 2018

Took part as a host team member in conference about data, technology, and communications, bringing together the data community from Eastern Europe and Central Asia, to inspire and encourage, and to create meaningful connections.

Vizhack : 1918 Team Member

vizhack.ge 2019

Data Visualization Hackathon – Back to the Future: 1918. Designers, developers, communication specialists, history researchers, journalists and people who are interested in the data worked together to visualise the historic data of the past 100 years and bring history to life.

Personal Projects

CatCus

fb.com/catcuses 2019

T-shirt printing startup for young generation in Georgia and techno-lovers;

Experience

Graphic Designer – Insurance Group of Georgia

2020 (present)

Creating advertisements for social media platforms and magazines as a freelancer

Graphic Designer – Edison Store

2019 – 2020

Started from zero, created whole brand identity: logo design, flyers, visit cards, banners, social media visuals and e.t.c. for this tech/hardware store

Graphic Designer – Edison Tech Solutions

2019 – 2020

Created the brand identity, visual language, logo, brandbook and elements for this tech startup, located in Georgia, Tbilisi

Graphic Designer – Commersant.ge

2018

Created all kind of visuals started from social media to the banners and billboards design.

Graphic Designer – ForSet

2017 – 2018

Worked on a variety of projects: DataViz posters, storytelling visuals, animations, infographics, illustrations and much more

Junior Graphic Designer – ForSet

2017 – 2018

It was a great opportunity to start part-time work at ForSet – company, that communicates with data; Learned a lot about design thinking, typography, dataviz and much more about the whole design world

Graphic Designer – Qarisma

2016

Created enamel jewelry sketches and design from zero to 3D object for test printing to put in the production after all this steps;

Front-End Developer, UI Designer – PCard

2016

worked on a Video platform as a front-end developer and if it was necessary, as an UI designer

Front-End Developer – Georgian Technical University

2016

Worked as a developer & website administrator on very interesting projects and tasks
